## **Agreement Of Partnership And Cooperation**

- ✘ The Agreement serves the modern mission of outreach between our Orders and follows a policy of non-interference and mutual respect for necessary rights of autonomy.
- ✘ With the agreement, we give our fellowship a binding framework and commit ourselves to continuing to promote and expand this cooperation.

- ✠ With the fellowship of our Orders, we intend to provide mutual practical support and exchange of knowledge concerning the Knights Templar as well as spiritual practices.
- ✠ We assure each other of confidentiality regarding the information, knowledge and materials acquired from the other order and will only use these for order purposes.
- ✠ As trust-building measures, regular consultations between those responsible for the Order, timely mutual information about important developments, as well as – if possible – mutual visits and participation in Order events should serve to deepen our relationship.
- ✠ The agreement initially runs for two years. It will be tacitly extended for the same period unless one party has objected to a further extension at least one month before the end of the term. This regulation also applies for the future.
